The screenshot shows the Visual Studio Code interface. The editor has two tabs: 'app.py' and 'style.css'. The 'app.py' tab is active, displaying the following code:

```

1 import ibm_db
2 conn = ibm_db.connect("DATABASE=bludb;HOSTNAME=3883e7e4-18f5-4afe-be8c-fa31c41761d2.bs2io90108kqb1od8lpg.databases.appdomain.cloud;PORT=31498;SECURITY=SSL;SSLServerCertificate=DigiCertGlobalRootCA.crt;UID=nfj16706;PWD=g18s0x8WjXLYVT1")
3 print(conn)
4 print("connection successful...")

```

The bottom panel shows the 'TERMINAL' tab with the following output:

```

, line 294, in _get_code_from_file
  code = compile(f.read(), fname, 'exec')
File "c:\Users\waste\AppData\Roaming\Python\Python310\site-packages\flask\t\app.py", line 2
  conn = ibm_db.connect("DATABASE=bludb;HOSTNAME=3883e7e4-18f5-4afe-be8c-fa31c41761d2.bs2io90108kqb1od8lpg.databases.appdomain.cloud;PORT=31498;SECURITY=SSL;SSLServerCertificate=DigiCertGlobalRootCA.crt;UID=nfj16706;PWD=g18s0x8WjXLYVT1")
                                     ^
SyntaxError: unterminated string literal (detected at line 2)

PS C:\Users\waste\AppData\Roaming\Python\Python310\site-packages\flask\t> c:; cd 'c:\Users\waste\AppData\Roaming\Python\Python310\site-packages\flask\t'; & 'C:\Program Files\Python310\python.exe' 'c:\Users\waste\.vscode\extensions\ms-python.python-2022.18.2\pythonFiles\lib\python\debugpy\adapter\..\..\debugpy\launcher' '57897' '-.' 'c:\Users\waste\AppData\Roaming\Python\Python310\site-packages\flask\t\app.py'
<ibm_db.IBM_DBConnection object at 0x0000023283FBFE30>
connection successful...

```

The terminal output indicates a syntax error in the Python code due to an unterminated string literal on line 2. The error message is: `SyntaxError: unterminated string literal (detected at line 2)`. The code in the terminal shows the same connection string as in the editor, but it appears to be truncated or misformatted in the terminal output.
